LICENSING & REVIEW

Ex parte: J. G. Bednorz et al  
Serial: 07/053,307  
Filed: May 22, 1987  
Title: NEW SUPERCONDUCTIVE COMPOUNDS HAVING HIGH  
TRANSITION TEMPERATURE, ETC.

This is in regard to the petition filed on March 30, 1989, for the grant of retroactive license for foreign filing under 35 U.S.C. 184. The petition is denied at this time. This also confirms the telephone conversation between applicants' attorney and Mrs. Grimes of this Office indicating that expedited handling of this petition is NOT required, and therefore the additional expedited fee will not be applied.

Retroactive licenses are granted under the provisions of 37 CFR 5.25. The petition does not include any of the items required under section 5.25(a)(1), (2) or (3). The petition can not be considered without such information.

Accordingly, the provisions of 37 CFR 5.25 not having been met, the petition is denied, and in the absence of any response within 60 days of the date of this letter, such denial will be made final and final action under 35 U.S.C. 185 will be taken. Extension of time may be had under 37 CFR 1.136(a).
